

Active Shooter Training Discussion Points Handout

Use as a team after watching this OSHA video:

<https://www.youtube.com/watch?v=NE39wTxR8Ok>

1) What are our three responses to an Active Shooter Event?

Answer:

React

Escape

Survive

2) What are the three critical ways of Reacting to the Active Shooter Event?

Answer:

Run

Hide

Fight

3) While you are finding a way to escape, what do you do if others insist on staying?

What should Your response be?

Answer:

Insist they join you or leave them if you must.

Getting Yourself out is your number one priority

4) If you can't escape, then what?

Answer:

Hide

Lock doors

Conceal behind large objects that conceal and protect

Silence phone

Remain Quiet and Calm

5) If you can't escape, hide or conceal, then what do you do?

Answer: Attack!

Should be last resort but working as a group you can take the shooter down.

Use fire extinguishers, office equipment, whatever you have.

6) Reaction Intervals refers to what?

Action - vs - Reaction

'OODA' Loop:

Observer

Orient

Decide

Act

7) Important things to be aware of include the following.

Know where your exits are

Know what workers are around you

Know you Must take action to escape

Know what things you can grab to attack the shooter

8) First responders are there to do what first?

Answer: Stop the shooter

9) When first responders arrive what's THE Most Important thing you can do to ensure Your safety?

Answer:

Remain Calm when talking to the responders

Keep your hands in sight at all times

10) What is the take home message?

Answer: React in order to Survive!
